

CAPT. McLEAN

Capt. W. H. McLean, of the big ocean steamship City of Sydney, of San Francisco and Panama, makes this important statement:

In December, 1904, I was in the last stages of Bright's Disease. San Francisco physicians told me that there was no show for me. The dropsy was so deep that I could stick a finger in the flesh almost anywhere. I was told that I would die within a few days. My old friend Donlon, of Donlon & Peck, told me the same thing—said he knew of worse cases than mine that got well. This started me. The first half dozen started the change, and I am at this writing (ten months later) as well as ever. I can pass for life insurance. I have told passengers from all over the world of my recovery. This treatment ought to be known all over the globe.

For the past two years Mrs. Riley's stage aspirations have given her husband considerable worry. Although he sympathized with her ambitions his parishioners do not, and they have taken up the question of her appearing in public and have advised him to prevent her. "I am going abroad next spring," said Mrs. Riley yesterday. "But I joined the Fritz Schell Company because I thought it would give me experience and fit me for the real work to which I intend devoting my life. I want to sing in grand opera. While our professions are not compatible, it has never made any difference between my husband and me. He has sympathized with my ambitions and I with him."
